Personal Profile

Computer Science graduate from Universidade Federal de Santa Maria (UFSM), currently studying Web Development at UFSM's Polytechnic School. Dedicated to programming, I have nearly two years of experience and I'm now specializing in web development. I'm available for internships or full-time positions, seeking opportunities in web development (full-stack, front-end, or back-end), in general programming, or in other opportunities inside the information technology field, including Artificial Intelligence.

Education

UFSM's Polytechnic School   *Santa Maria, Brazil*
Web Development Course   *March 2024 - Current*

- On-campus course at night time, currently attending.
- Course load of 1,005 hours total, with completion expected between july 2025 and december 2026.
- **Courses:** Programming and Algorithms, Interface Design, Databases, Software Engineering, Object-oriented Programming, Web Page Development (Front-End), Web Application Development (Back-End), Mobile Development.

Universidade Federal de Santa Maria (UFSM)   *Santa Maria, Brazil*
Computer Science   *March 2011 - May 2022*

- On-campus course, completed. Course load of 3,285 hours.
- Stood out on all hands-on programming courses and also in math related courses.
- **General Arithmetic Average (MGA):** 7.81 / 10.
- **Courses:** Algorithms and Logic, Data Structures, Programming Paradigms, Databases, Algorithm Analysis, Computer Architecture, Operational Systems, Compilers, Computer Networks, Software Engineering, Distributed Systems, Data Sorting and Searching, Image Processing, Parallel Programming, Computer Graphics, Artificial Intelligence.

Experience

Revista Arco   *Santa Maria, Brazil*
Web Development Intern   *April 2016 - February 2018*

- Maintained the front-end and back-end of the website, along with search engine optimizations (SEO).
